

Technology – From the Student’s Perspective

Topics Covered during the hands-on presentation:

- Collaborative Classroom
 - Layout of the room
 - Intel Sticks
 - Video Switcher
- Use of a “game-like” software called KAHOOT to show assessment capabilities
 - Available to use with cellphones
 - Also has a “TeamMode” feature
- Discussion on the telepresence robots available on campus
 - 6 robots available in total
 - How the college is using them
 - A demo with an individual who logged in from home
 - Opportunities to drive the robots for attendees
